Foot Reading - 90 to 120 minutes at HK\$ 780

Our feet represent who we are!

Foot shapes, colours, calluses, corns, crooked toes..... all tell a story.

"Foot reading" helps us to understand ourselves better: why we feel, think and act in a certain way. It gives us insight into our whole being.

By reading the feet we can see where our strengths lie and where we hide our weaknesses; it shows our feelings as well as our thoughts.

A beautiful way of getting to know ourselves, and for parents, to understand their children from a different perspective.

Reflexology Treatment - 90 minutes at HK\$ 680

Reflexology is a holistic therapy which uses specific points on the feet to correspond with organs, systems and structures within the entire body!

The soft touch calms the nerves and relaxes and energizes body, mind & spirit, inducing a state of balance and harmony within you!

Monika lets herself be guided by her hands and intuition to gain insight into your wellbeing, helping you to start your own healing journey!
